Continuation of Substance of Interview including description of the general nature of what was discussed:

The examiner discussed minor substantive revisions in sole independent claim 1 with the applicants' attorney so as to more clearly define the claimed invention over the prior art. However, the applicants' attorney was unable to discuss the proposed changes with his client prior to the Examiner's deadline for sending the next Office Action in this case. Consequently, the applicants' attorney advised the Examiner to proceed with his next Office Action. During their telephone conversation, the Examiner informed the applicants' attorney that he would include a copy of the proposed changes that were discussed in the Office Action so that they could be considered by the Applicants in any future amendments. The specific proposed changes are documented in the Claim Suggestions section of the attached Office Action.
